DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-4, 9-23, and 41-61, drawn to a method for administration of an account maintained by two institutions, classified in class 705, subclass 35.

II. Claims 5-8, drawn to a method for administration of related subsidiary accounts located in the same country, classified in class 705, subclass 35.

III. Claims 24-25, drawn to a method for providing relating accounts where the spending capacity of a subsidiary account is determined by a currency exchange rate, classified in class 705, subclass 35.

IV. Claims 26-40, drawn to a system for creation and administration of subsidiary accounts, classified in class 705, subclass 35.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention shows separate utility pertaining to the administration of a subsidiary account as described above in paragraph 1. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
